The fact that the Distilling and Cattle Feeding Company has made another advance f five cents in the price of spirits led to a sharp frise in that stick and incidentally atimulated the rise in the other industries. There was a rise of two points in Western I nion and Manbattan, the former having

Outside of the stockr named the largest advances were in Sugar, the Grangers Distilling a Cattle Feeding and National Cordings. The buying of the last named is based on statements that the common stock will sherrly be increased from \$10,000,000 to \$20,000,000, the additional shares to be given to present holders as a bonus.

The West was a free buyer of the Grangers and others. London was also a purchaser. Sales up to noon were 18,000 listed and 47,000 shares of unlisted stocks.
